

Avalon CTS

With Avalon CTS, you can be confident that you will have all of the information you need for your Traffic, Criminal and other types of cases. Avalon CTS will keep track of your client's case information, case history and the monies that are owed. It's multiuser, which means that everyone in your office can share the client and case information.

It fill outs and prints all of the paperwork for your clients and for the courts. It keeps track of all the court schedules and print the court schedule by date range and/or court location. Also print and/or email client disposition letters, in both English and Spanish.

If you want to add more features to the program we can add them for you. We'll customize it to your taste and/or to your company's needs.

There is also a client invoicing module, that tracks and prints client invoices and letters.

Features:

eFile ready, *creates PDF files (breaks it down by county and date)*

Paperless office ready *(store everything in PDF format)*

Ability to print or email court documents and deposition letters

Auto tasking system and shared office calendar

Send text messages to clients and attorneys

Keep track of client payments, simple money tracking and invoicing system

Print deposition letters in both English and Spanish, also import county depositions results

Court scheduling system, print court calendar per date & location range, also import county court schedules

Print client folder labels automatically

Also includes office reports and marketing
